

Saving Asia's Last Great Wilderness

THE LEUSER ECOSYSTEM

With design, layout, graphics and production by Belt Collins International (Singapore) and photography by Mike Griffiths and Allen Kerton, this book describes the extensive biodiversity of the 2.7 million hectare Leuser Ecosystem in Aceh, Sumatra, Indonesia and its importance, the numerous threats that this fragile ecosystem is facing, how these threats are being dealt with, together with visions for future eco-tourism and conservation research facilities.

Saving Asia's Last Great Wilderness - The Leuser Ecosystem is published by Red Shed Pte Ltd (singapore@redshed.com.sg).
